

30 Nov–1 Dec 2017 | ROVANIEMI

FERA Conference on Education 2017

4. Inklusiivinen kasvatus ja erityisopetus/Inclusive and special education chairs Outi Kyrö-Ämmälä & Suvi Lakkala, University of Lapland

You are welcome to discuss and present your own research and thoughts on the theme of agency and participation. The subject may focus on education and pedagogy or more broadly on the societal perspective.

The workshop will focus on the framework's current theme of participation and seek answers to, for example, the following questions: Who participates? Which classroom practices promote participation or reinforce barriers? Why do these practices promote or hinder participation? The aim is to identify stamping and unequal practices and to discuss the key factors of participation: access to the group and curriculum, classroom collaboration, achievement from individual support, and recognising and accepting diversity.
