

Law, Technology and Design Thinking Research Group Workshop:
Measures to Contain and Prevent the Covid-19
A Comparative Analysis of their Effects on the Fundamental Rights of Privacy

Date and Venue: 27th May 2020, 15-16.30, University of Lapland

Via Microsoft Teams, link: [Join Microsoft Teams Meeting](#)

Description:

Due to the pandemic spread of the Covid-19 virus almost every state in the world has taken measures to contain the spread of the virus and mitigate its effects. Although the measures and the implementation of the rules differ throughout Europe (and the world) the basics of the measures are very comparable.

The goal of the Workshop is to compare the measures taken thus far in some European States, namely Finland, Italy, Poland, Germany and The Netherlands and analyse them based on their effects and legitimacy in respect to the restriction of fundamental rights, privacy and data protection.

Registration: Please register by sending an email to Girardi Dino dino.girardi@ulapland.fi and Riekkinen Juhana, juhana.riekkinen@ulapland.fi not later than the 26th May 2020.

Programme

15.00 - 15.05 Opening words

Rosa Maria Ballardini (University of Lapland)

Chair: Dino Girardi (University of Lapland)

15.05 - 15.15 – Introduction: The Big Picture

Rob van den Hoven van Genderen (University of Lapland and Vrije Universiteit Amsterdam)
