

## Abstract

In my presentation, I will talk about the research project *Socially Innovative Interventions to Foster and to Advance Young Children's Inclusion and Agency in Society through Voice and Story* (AdVoSt 2020-2021). I will concentrate on presenting the Sámi case, which is about Sámi language distance education in a school context with 6-7 years old learners. The AdVoSt - project will take into practice the theoretical guiding principles for facilitating and enhancing young children's voices in specific Indigenous and minority language contexts. The Sámi Case aims to produce new knowledge to the language-learning situation that is demanding and diverse.
