

Strengthening Global Competences through Global responsibility programmes

Riina Vuorento

Ministry of Education, Science and Culture
Ministère de l'Éducation, des sciences et de la culture

Government Programme and joint objectives of the higher education system

Internationalisation strategy 2009 – 2015/ Finland:

**To create a
genuinely
international
higher
education
community**

**Increase in
the quality
and
attractiveness
of higher
education
institutions**

**Education
and expertise
export**

**Supporting a
multicultural
society**

**Promotion of
global
responsibility**

Promotion of
global
responsibility

“Finnish higher education institutions utilise their research and expertise to solve global problems and to consolidate competence in developing countries. The activities of higher education institutions are ethically sustainable and support students’ prerequisites to function in a global environment as well as to understand the global effects of their activities.”
