

YHYS Early career researcher meeting 2018

TIME AND PLACE

21.11.2018, One day before the YHYS colloquium
LAPIN YLIOPISTO, sauna seminar premises
ROVANIEMI, LAPLAND, SÁPMI, FINLAND

Form of the seminar

The purpose of this informal pre-conference seminar is to bring together early career researchers interested in environmental issues across disciplinary boundaries. The main emphasis of the event will be on socializing and networking.

The seminar proceeds in a *Hyde Park* form in which presentations are very short: **5-minute-long** and including maximum of **3 slides**. Hyde Park form enables participants to get a glimpse of colleagues' research projects and to learn about each other's' interests without being overwhelmed by them.

After the Hyde Park sessions, there is time for informal socializing: beverages will be served and sauna will be warmed.

Target group

Especially doctoral students, post docs and other early career researchers are encouraged to attend. However, all YHYS members are equally welcome.

Please note that you may also attend the Hyde Park session even if you do not have your own paper at the conference. The meeting can also be attended without own presentation.

Credits

By participating both Hyde Park session and workshop session with a presentation, it is possible to gain 3 ECTS for doctoral studies.

Fees

The conference fee (15/25 €) covers the Early career researcher meeting participation. The event is free for the students of University of Lapland.

Registration

You can sign up to Hyde Park session by Sept, 3, 2018 via YHYS-webpages with the title of your presentation. No abstract is needed.
