

“Survival Kit for Young Researchers: Getting Funded, Getting Published.”

Speakers:

- Professor Claire Hemmings (LSE)
- Senior lecturer Mia Liinason (Gothenburg University)
- PhD student Katrine Smiet (Radboud University)

The workshop will aim to answer the questions of those starting their academic career: How to get funded? How to get published? How to deal with diverse expectations? How to avoid burnout?

The workshop aims to inspire knowledge sharing across generations and feminist support inside the increasingly competitive academy.

Students are encouraged to send their questions to be included in the general discussion - for that contact organisers Beatriz (beatriz_revelles@hotmail.es) and Rasa (rasa_navicke@yahoo.com).
