

30 Nov–1 Dec 2017 | ROVANIEMI

FERA Conference
on Education
2017

18. Opettajankoulutuksen tutkimus ja kehittäminen/Research and development in teacher education

chairs Minna Körkkö and Tuija Turunen, University of Lapland

Thematic group for research and development in teacher education addresses current research with focus on teacher education, its structures, practices and processes. The aim is to discuss both present situation and future developmental paths and challenges in teacher education. Both theoretical and empirical presentations are welcome. Thematic group addresses, for instance, the following themes of teacher education: co-teaching and multidisciplinary cooperation, emotional skills, teacher education contexts, curriculums and pedagogies, student teacher's learning and professional development, and student teacher's and a teacher's professional competence.
